CAREER OBJECTIVE

Creative and detail-oriented UI/UX Designer and Frontend Developer with a strong foundation in responsive web design, wireframing, prototyping, and modern user interface development. Skilled in transforming design concepts into user-friendly digital experiences using HTML, CSS, JavaScript, React, and UI/UX principles. Experienced in designing visually engaging layouts and responsive interfaces using Figma, Canva, Adobe XD, and AI-powered design tools. Passionate about creating clean, modern, and intuitive web experiences that improve usability and user interaction. Comfortable working in collaborative environments and eager to contribute innovative ideas while continuously learning new technologies and design trends. Seeking a full-time opportunity to grow professionally in UI/UX Design and Frontend Development.

EDUCATION

SILVER OAK UNIVERSITY	IMSc-IT (2022 – 2026)
TOPS TECHNOLOGIES	UI & UX Design & Frontend Development (2025 – 2026)

TECHNICAL SKILLS

- HTML5 & CSS3
- JavaScript & React JS
- Bootstrap & Responsive Design
- UI/UX Design Principles
- Wireframing & Prototyping
- Product Design
- Poster & Social Media Design
- Logo Design

SOFTWARE & TOOLS

Design Tools: Figma, Canva, Adobe XD, Photopea, WordPress

AI Tools: ChatGPT, Gemini, AI Google Tools, Stitch, Google Mix Board

PROJECTS

Netflix Clone Website (Frontend)

Developed a modern and visually appealing Netflix Clone website using HTML and CSS while closely replicating the original Netflix interface and layout design. Designed responsive sections including hero banners, movie thumbnails, content rows, and footer components with proper spacing and alignment. Focused on creating a smooth and user-friendly experience by applying UI/UX best practices and responsive web design techniques.

The Confectionary Chronicle (UI/UX Project)

Designed a complete UI/UX concept for “The World’s Tastiest Digital Patisseries” bakery platform using Figma. Created attractive and modern user interfaces focused on improving customer engagement and user experience. Designed user-friendly layouts for showcasing bakery products, sweets, menus, and product categories with clear navigation and visually balanced sections. Developed wireframes and high-fidelity UI screens while maintaining consistency in typography, colors, spacing, and visual hierarchy.
